衛星地球観測コンソーシアム
Consortium for Satellite Earth Observation

Outline of CONSEO Climate Change Series

Naoko Matsuo,
Senior Engineer
Satellite Applications and Operations Center
JAXA

Deadly storms in UAE and Oman.

Dubai airport flooded.

“Heaviest rainfall in 75 years” caused deaths.

[BBC](#)

In Mecca, at least 1,301 people died during Hajj pilgrimage, Saudi Arabia says.

Purposes of CONSEO Climate Change Series

- 1) To emphasize the need for international cooperation including satellite Earth observations and to enhance opportunities. Climate change is a global challenge. Japan cannot understand and address it alone.
- 2) To share various scientific insights on climate change with CONSEO members, which leads to create new applications addressing issues on climate change.
- 3) To raise awareness of Earth observation through this series event. Satellite Earth observations contribute to our understanding of climate change, but it is not widely known.

CONSEO気候変動シリーズの計画案

- 1st Session: Friday, July 19th, 10:00 AM - 11:30 AM,
Climate Change and International Cooperation Part 1: "Understanding Climate Change Requires Global Cooperation!"
